Badass-Ben Thompson 2009-10-27 The badasses populating the pages of Badass are the most savagely awesome historical figures to ever strap on a pair of chain mail gauntlets and run screaming into battle. Author Ben Thompson—considered by many to be the Internet's foremost expert on badassitude—has gathered together a rogues' gallery of butt-stomping rogues, from Julius Caesar and Genghis Khan to Blackbeard, George S. Patton, and Bruce Lee. Their bone-breaking exploits are illustrated by top artist from the fields of gaming, comics, and cards—DC Comics illustrator Matt Haley and Thomas Denmark, illustrator for the collectible card game Magic: The Gathering. This is not your

boring high school history—this is tough, manly, unrelentingly Badass!

Reclaiming Surrendered Ground-Jim Logan
2015-12-15 Equip your family for spiritual warfare. Few families are aware of the Devil's attacks. Fewer know how to withstand them. Is yours ready? Jim Logan used to think spiritual warfare was a radical idea. That was before he realized just how real it was, especially in the lives of families. Moved by this discovery, in a ten-year span he read over 400 books on spiritual warfare and counseled hundreds of families under satanic attack, soon emerging as a spiritual warfare expert. Reclaiming Surrendered Ground represents the insights gained in those years of study and ministry, and it contains the principles he turned to repeatedly in counseling families. Logan will help you and your family: Become alert to the enemy and his tactics Discover your areas of vulnerability Live freely in Christ's victory Don't let the enemy gain ground in your family. Read Reclaiming Surrendered Ground and be equipped for battle.

End the Fed-Ron Paul 2009-09-16 A provocative and controversial treatise that argues we cannot actually fix the broken economy without discussing the 800-lb gorilla in the room: the Federal Reserve. Most people think of the Fed as an indispensable institution without which the country's economy could not properly function. But in End the Fed, Ron Paul draws on American history, economics, and fascinating stories from his own long political life to argue that the Fed is both corrupt and unconstitutional. It is inflating currency today at nearly a Weimar or Zimbabwe level, a practice that threatens to put us into an inflationary depression where \$100 bills are worthless. What most people don't realize is that the Fed -- created by the Morgans and Rockefellers at a private club off the coast of Georgia -- is actually working against their own personal interests. Congressman Paul's urgent appeal to all citizens and officials tells us where

we went wrong and what we need to do fix America's economic policy for future generations.

Assessing French Proficiency with Stories-

Eric Herman 2021-02-13 The stories in the 2nd edition have been revised by a native speaker of French and the 300-word checklist has been updated to reflect the highest frequency 300 words in French. "I put the development of new kinds of tests at the top of the list because of the importance of tests in shaping all that we do and think in the classroom. . . If we teach for communicative competence, we have to test for communicative competence." (Communicative Approach Expert, Sandra J. Savignon, 1976, p. 5). With this guide (same guide as is in Assessing Proficiency in the Classroom) and these French texts, proficiency testing can finally become a common practice in the classroom, which can have widespread effects on how we teach, namely, enabling more communicative language teaching. The book reviews the constructs and terminology of communicative language teaching and testing. The Proficiency Guidelines from the American Council on the Teaching of Foreign Languages (ACTFL) are explained, critiqued, and common misinterpretations reviewed. Improved testing methods are discussed and practical tasks recommended. Teachers with a story-based curriculum can test how they teach and everyone can use stories as the starting point for different communicative tasks. In addition to the proficiency guide, the book consists of 30 stories and 30 quizzes. The readings get progressively more challenging. One possible use of the stories is for a speed reading course, thus, the benefits and research of speed reading are included.

The Coddling of the American Mind-Greg Lukianoff 2018-09-04 Something is going wrong on many college campuses in the last few years. Rates of anxiety, depression, and suicide are rising. Speakers are shouted down. Students and professors say they are walking on eggshells and afraid to speak honestly. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: what doesn't kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths are incompatible with basic psychological principles, as well as ancient wisdom from many cultures. They interfere with healthy development. Anyone who embraces these untruths—and the resulting culture of safetyism—is less likely to become an autonomous adult able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to produce these untruths. They situate the conflicts on campus in the context of America's rapidly rising political polarization, including a rise in hate crimes and off-campus provocation. They explore changes in childhood including the rise of fearful parenting, the decline of unsupervised play, and the new world of social media that has engulfed teenagers in the last decade. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

Rising Titans, Falling Giants-Joshua R. Itzkowitz Shiffrin 2018-09-15 As a rising great power flexes its muscles on the political-military scene it must examine how to manage its relationships with states suffering from decline; and it has to do so in a careful and strategic manner. In *Rising Titans, Falling Giants* Joshua R. Itzkowitz Shiffrin focuses on the policies that rising states adopt toward their declining competitors in response to declining states' policies, and what that means for the relationship between the two. *Rising Titans, Falling Giants* integrates disparate approaches to realism into a single theoretical framework, provides new insight into the sources of cooperation and competition in international relations, and offers a new empirical treatment of great power politics at the start and end of the Cold War. Shiffrin challenges the existing historical interpretations of diplomatic history, particularly in terms of the United States-China relationship. Whereas many analysts argue that these two nations are on a collision course, Shiffrin declares instead that rising states often avoid antagonizing those in decline, and highlights episodes that suggest the US-China relationship may prove to be far less conflict-prone than we might expect.

Gustavo, the Shy Ghost-Flavia Z. Drago
2020-07-14 This winning debut picture book from Mexican artist Flavia Z. Drago about finding the courage to make friends is perfect for the spooky season — or anytime. Gustavo is good at doing all sorts of ghostly things: walking through walls, making objects fly, and glowing in the dark. And he loves almost nothing more than playing beautiful music on his violin. But Gustavo is shy, and some things are harder for him to do, like getting in a line to buy eye scream or making friends with other monsters. Whenever he tries getting close to them, he realizes they just can't see him. Now that the Day of the Dead is fast approaching, what can he do to make them notice him and to share with them something he loves? With fancifully detailed artwork and visual humor, debut picture-book creator Flavia Z. Drago's vivid illustrations tell a sweet and gently offbeat story of loneliness, bravery, and friendship that is sure to be a treat for little ghouls and goblins everywhere.

I Survived Hurricane Katrina, 2005 (I Survived #3)-Lauren Tarshis 2011-10-01 The horror of Hurricane Katrina is brought vividly to life in this fictional account of a boy, a dog, and the storm of the century. Barry's family tries to evacuate before Hurricane Katrina hits their home in New Orleans. But when Barry's little sister gets terribly sick, they're forced to stay home and wait out the storm. At first, Katrina doesn't seem to be as bad as predicted. But overnight the levees break, and Barry's world is literally torn apart. He's swept away by the floodwaters, away from his family. Can he survive the storm of the century -- alone?

Restraining Great Powers-T. V. Paul 2018-01-01 At the end of the Cold War, the United States emerged as the world's most powerful state, and then used that power to initiate wars against smaller countries in the Middle East and South Asia. According to balance-of-power theory--the bedrock of realism in international relations--other states should have joined together militarily to counterbalance the United States' rising power. Yet they did not. Nor have they united to oppose Chinese

aggression in the South China Sea or Russian offensives along its western border. This does not mean balance-of-power politics is dead, argues renowned international relations scholar T. V. Paul; instead it has taken a different form. Rather than employ familiar strategies such as active military alliances and arms buildups, leading powers have engaged in "soft balancing," which seeks to restrain threatening powers through the use of international institutions, informal alignments, and economic sanctions. Paul places the evolution of balancing behavior in historical perspective, from the post-Napoleonic era to today's globalized world. This book offers an illuminating examination of how subtler forms of balance-of-power politics can help states achieve their goals against aggressive powers without wars or arms races.

From Development to Dictatorship-Thomas C. Field 2014-05-08 During the most idealistic years of John F. Kennedy's Alliance for Progress development program, Bolivia was the highest per capita recipient of U.S. foreign aid in Latin America. Nonetheless, Washington's modernization programs in early 1960s Bolivia ended up on a collision course with important sectors of the country's civil society, including radical workers, rebellious students, and a plethora of rightwing and leftwing political parties. In *From Development to Dictatorship*, Thomas C. Field Jr. reconstructs the untold story of USAID's first years in Bolivia, including the country's 1964 military coup d'état. Field draws heavily on local sources to demonstrate that Bolivia's turn toward anticommunist, development-oriented dictatorship was the logical and practical culmination of the military-led modernization paradigm that provided the liberal underpinnings of Kennedy's Alliance for Progress. In the process, the book explores several underappreciated aspects of Cold War liberal internationalism: the tendency of "development" to encourage authoritarian solutions to political unrest, the connection between modernization theories and the rise of Third World armed forces, and the intimacy between USAID and CIA covert operations. At the same time, the book challenges the conventional dichotomy between ideology and strategy in international politics, and it engages with a growing literature on development as a key rubric for understanding the interconnected processes of decolonization and the Cold War.

Goblin Slayer Side Story: Year One, Vol. 4

(manga)-Kumo Kagyu 2020-04-28 After protecting a village from a horde of goblins, a certain young man is called Goblin Slayer for the first time. He has the ring appraised by an eccentric magician known as Arc Mage, who, in exchange, requests his assistance in compiling a monster manual for the Guild. What section will he help research? The one about goblins, of course! With a single ring-and a single light-a brand-new story begins.

Boston Strong-Casey Sherman 2015-02-03

Veteran journalists Casey Sherman and Dave Wedge have written the definitive inside look at the Boston Marathon bombings with a unique, Boston-based account of the events that riveted the world. From the Tsarnaev brothers' years leading up to the act of terror to the bomb scene itself (which both authors witnessed first-hand within minutes of the blast), from the terrifying police shootout with the suspects to the ultimate capture of the younger brother, *Boston Strong: A City's Triumph over Tragedy* reports all the facts-and so much more. Based on months of intensive interviews, this is the first book to tell the entire story through the eyes of those who experienced it. From the cop first on the scene, to the detectives assigned to the manhunt, the authors provide a behind-the-scenes look at the investigation. More than a true-crime book, *Boston Strong* also tells the tragic but ultimately life-affirming story of the victims and their recoveries and gives voice to those who lost loved ones. With their extensive reporting, writing experience, and deep ties to the Boston area, Sherman and Wedge create the perfect match of story, place, and authors. If you're only going to read one book on this tragic but uplifting story, this is it.

Fiebre Tropical-Juli Delgado Lopera 2020-03-03
Lit by the hormonal neon glow of Miami, this heady, multilingual debut novel follows a Colombian teenager's coming-of-age and coming out as she plunges headfirst into lust and evangelism. "Ebullient and assertive. . . . Francisca's soul stinks up the place beautifully in Fiebre Tropical." —The New York Times "Juli

Delgado Lopera—remember that name—is an irreverent, shameless and disarming new novelist. They are a merciless satirist in control of a pitch-perfect voice that makes an indisputable case for Spanglish as the perfect vehicle to express what we are really like right now." —NBC News "A layered portrait of exile, sexual awakening, and family bonds." —The Millions "Fiebre Tropical crackles and hums like neon, embedding contagious energy in the coming-of-age story of Francisca." —Them Uprooted from her comfortable life in Bogotá, Colombia, into an ant-infested Miami townhouse, fifteen-year-old Francisca is miserable and friendless in her strange new city. Her alienation grows when her mother is swept up into an evangelical church, replete with Christian salsa, abstinent young dancers, and baptisms for the dead. But there, Francisca also meets the magnetic Carmen: opinionated and charismatic, head of the youth group, and the pastor's daughter. As her mother's mental health deteriorates and her grandmother descends into alcoholism, Francisca falls more and more intensely in love with Carmen. To get closer to her, Francisca turns to Jesus to be saved, even as their relationship hurtles toward a shattering conclusion.
