Hopscotch-Julio Cortazar 2014-08-05 Translated by Gregory Rabassa, winner of the National Book Award for Translation, 1967 Horacio Oliveira is an Argentinian writer who lives in Paris with his mistress, La Maga, surrounded by a loose-knit circle of bohemian friends who call themselves "the Club." A child's death and La Maga's disappearance put an end to his life of empty pleasures and intellectual acrobatics, and prompt Oliveira to return to Buenos Aires, where he works by turns as a salesman, a keeper of a circus cat which can truly count, and an attendant in an insane asylum. Hopscotch is the dazzling, freewheeling account of Oliveira's astonishing adventures.

LSD, My Problem Child-Albert Hofmann 2005 This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition.We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery.Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people.Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.

A Neotropical Companion-John C. Kricher 1999 A Neotropical Companion is an extraordinarily readable introduction to the American tropics, the lands of Central and South America, their remarkable rainforests and other ecosystems, and the creatures that live there. It is the most comprehensive one-volume guide to the Neotropics available today. Widely praised in its first edition, it remains a book of unparalleled value to tourists, students, and scientists alike. This second edition has been substantially revised and expanded to incorporate the abundance of new scientific information that has been produced since it was first published in 1989. Major additions have been made to every chapter, and new chapters have been added on Neotropical ecosystems, human ecology, and the effects of deforestation. Biodiversity and its preservation are discussed throughout the book, and Neotropical evolution is described in detail. This new edition offers all new drawings and photographs, many of them in color. As enthusiastic readers of the first edition will attest, this is a charming book. Wearing his learning lightly and writing with ease and humor, John Kricher presents the complexities of tropical ecology as accessible and nonintimidating. Kricher is so thoroughly knowledgeable and the book is so complete in its coverage that general readers and ecotourists will not need any other book to help them identify and understand the plants and animals, from birds to bugs, that they will encounter in their travels to the New World tropics. At the same time, it will fascinate armchair travelers and students who may get no closer to the Neotropics than this engagingly written book.

Companions of the Night-Vivian Vande Velde 2002-09-01 The Edgard Award–winning author of Never Trust a Dead Man puts a terrifying spin on what should be a typical night in a small town. Black Air (Galician Wave Book 1)-Agustin Fernandez Paz 2014-09-29 Victor Moldes is an outstanding psychiatry student, looking to test his knowledge on patients. He is given a job at the prestigious Beira Verde Clinic in Galicia, near the Portuguese border, and handed a patient, Laura Novo, who is capable only of writing her name on blank sheets of paper. Slowly he draws her out of herself and she agrees to tell him her story, how she left Madrid in order to work on her thesis and escape a difficult relationship that was going nowhere. Her return to the land where she grew up, to stay in a guest house run by a schoolteacher she had fallen passionately in love with when she was a teenager, has fatal consequences. Her presence in the remote area of Terra Cha awakens the Great Beast, who up until that moment had been slumbering in the depths of the earth. Once awake, the Great Beast has one year to achieve its objective. Dr Moldes finds himself drawn into a conflict he is barely able to understand, let alone control, and, having finally pieced together the fragments of the narrative, he is in a race against time to save his patient. Agustin Fernandez Paz is Galicia's best-selling children's author. He has been nominated for both the Hans Christian Andersen Award and the Astrid Lindgren Memorial Award. Faecal Sludge Management-Linda Strande 2014-08-15 It is estimated that literally billions of residents in urban and peri-urban areas of Africa, Asia, and Latin America are served by onsite sanitation systems (e.g. various types of latrines and septic tanks). Until recently, the management of faecal sludge from these onsite systems has been grossly neglected, partially as a result of them being considered temporary solutions until sewer-based systems could be implemented. However, the perception of onsite or decentralized sanitation technologies for urban areas is gradually changing, and is increasingly being considered as long-term, sustainable options in urban areas, especially in low- and middle-income countries that lack sewer infrastructures. This is the first book dedicated to faecal sludge management. It compiles the current state of knowledge of the rapidly evolving field of faecal sludge management, and presents an integrated approach that includes technology, management, and planning based on Sandecs 20 years of experience in the field. Faecal Sludge Management: Systems Approach for Implementation and Operation addresses the organization of the entire faecal sludge management service chain, from the collection and transport of sludge, and the current state of knowledge of treatment options, to the final end use or disposal of treated sludge. The book also presents important factors to consider when evaluating and upscaling new treatment technology options. The book is designed for undergraduate and graduate students, and engineers and practitioners in the field who have some basic knowledge of environmental and/or wastewater engineering.

Soccer in Spain-Timothy J. Ashton 2013-09-12 In the last few years, Spanish soccer has surged to the forefront of the sport, with the national team winning the last two European Championships and the 2010 World Cup. Soccer has long been a global social phenomenon that captivates the masses, and this is clearly evident in the people of Spain. Since the formation of Spain’s first club teams at the turn of the 20th century, the sport of soccer has long been connected with Spain’s internal historical and socio-political disputes. In Soccer in Spain, Timothy Ashton not only details the strong relationship between soccer and politics in Spain, but also demonstrates the multifaceted connection the sport has with other aspects of Spanish society, namely literature and film. This book opens the doors into Spanish literature, film, and politics as they pertain to soccer, and will be especially worthwhile and significant for soccer fans and scholars alike.

Fahrenheit 451 [TV Tie-In Edition]-Ray Bradbury 2018-04 The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' The Times "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world' Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has the power to dazzle and shock.

I am the happiest man alive' Henry Miller's blazing first novel follows a young American writer as he makes his way through 1930s bohemian Paris, encountering penniless artists, pimps, 'prostitutes like wilted flowers', princesses, drunks, hustlers and sexual adventurers. Banned as pornographic and the subject of several obscenity trials, Tropic of Cancerdefied the conventions of its day and of language itself- a verbally dazzling, carnivalesque hymn to freedom and being alive that remade the modern novel. The characters are almost imperceptibly revealed through the kaleidoscopic accumulation of their reflections on themselves and each other. Regarded by many as Virginia Woolf's masterpiece, The waves was partially written in order to exorcise her private ghosts as the central, yet absent, character of Percival represents her brother Thoby, who died in 1906. It is a poetic dreamscape, visual, experimental and thrilling.
