Presupuestos-Carlos Augusto Rincón Soto 2017-07-07 Este libro promueve la comprensión de los presupuestos de una manera práctica ya que lo importante de los presupuestos es reconocer la conectividad de los datos. El diseño presupuestal inicia por plantear cuáles serán los indicadores finales, información que requieren las juntas directivas y administrativas para el control y la toma de decisiones, pues los indicadores están relacionados con los objetivos y metas de la empresa. Además, deben ser congruentes con los indicadores estandarizados por la contabilidad financiera. Todos los datos de ventas, compras, pagos, recaudos, préstamos, gastos, ingresos, etc., se conectan hacia la construcción de los indicadores financieros diseñados inicialmente. Este libro explica cómo se ensamblan los datos para llegar a los estados financieros, con varios ejemplos, que son transversales en todos los capítulos; que facilitan el aprendizaje de los presupuestos. Al final, el módulo de trazabilidad en el diseño de un sistema presupuestal explica la estrategia para desarrollar un diseño adecuado a la necesidad de cada organización.

Impuestos diferidos-Carlos Augusto Rincón Soto 2019-03-01 En este material se proponen ejemplos sencillos, pero integrados, que facilitan la comprensión del impuesto diferido y su relación con los estados financieros. La intención es explicar el flujo de información en un Sistema de Información Contable (SIC), basado en una contabilidad multiusuario. El capítulo 1 expone, en un marco conceptual y teórico sobre la contabilidad multiusuario, la información NIIF, las políticas contables y la taxonomía de estados financieros NIIF y fiscal. En el capítulo 2, se presentará la estructura contable multiusuario, en las múltiples dinámicas de planes de cuentas. En el capítulo 3, se mostrará cómo se calculaba el impuesto diferido en la normatividad contable anterior a las NIIF, para posteriormente, en el capítulo 4, presentar los fundamentos normativos de la contabilidad financiera internacional bajo NIIF para el impuesto diferido. En el capítulo 5, se muestra la metodología en NIIF. Por último, con la vinculación de otros autores, en el capítulo 6, resultado de investigación, se presenta una comparación de las partidas del activo entre la normatividad NIIF para pyme y la normatividad fiscal (Ley 1819 de 2016 en Colombia) para considerar los posibles casos que podrían dar impuesto diferido en el activo.

Experiencias de innovación educativa-Alba Liseth Torres López 2019-03-01 El Laboratorio de Experiencias de Aprendizaje Inmersivo de Educación Virtual del Politécnico Grancolombiano continúa con su serie de publicaciones que reúne las experiencias de innovación realizadas para sus diferentes programas académicos utilizando ambientes inmersivos de aprendizaje, en esta ocasión se presentan varios proyectos de áreas del conocimiento variadas como: Administración, finanzas, contabilidad, pública, comunicación, matemáticas, física e industrial. Dentro de las experiencias desarrolladas tenemos simuladores de Finanzas Corporativas, Costos por órdenes y por procesos, Política fiscal, Control de calidad, Producción industrial y Eventos discretos. De igual manera, se presentan juegos serios como el de Gerencia Financiera y Pensamiento estratégico. Además, se incorpora un laboratorio online para física en: mecánica, eléctrica y termodinámica con elementos de storytelling. Se crean dos softwares que funcionan como herramientas didácticas para el aula como Diagnóstico de habilidades gerenciales y Diagnóstico integral de empresas en Comunicación estratégica, con la facilidad que pueden aplicarse en el aula como ejercicio de aprendizaje y en cualquier empresa como herramienta de diagnóstico. Se finaliza el proyecto con una herramienta particular para el aprendizaje de la matemática que consiste en un libro interactivo que le permite al estudiante integrar conceptos, actividades, ejercicios, simulaciones en un único

ambiente virtual. Esperamos con estos proyectos continuar promoviendo la innovación educativa en las aulas, sabemos con certeza que las experiencias aquí recogidas serán de utilidad para todos aquellos que buscan arriesgarse a crear, diseñar e implementar mejores estrategias con sus estudiantes.

Finance for Development-Barbara Stallings 2006-03-08 Access to finance is critical in setting the course for development in emerging market economies. In this innovative study, which provides the first book-length analysis of the Latin American financial sector, Barbara Stallings and Rogerio Studart examine the dramatic changes resulting from financial liberalization in the region. The authors begin by discussing the critical transformations taking place in Latin America since 1990—a period marked by acceleration toward a new open, market-oriented development model, and away from a semi-closed model relying heavily on the state. Stallings and Studart examine changes in ownership of the financial sector and government regulation of banking, evaluate the role of capital markets as a source of finance, and compare Latin America's financial sector to that of East Asia. The second section of the book features case studies that demonstrate the changes occurring in Chile, Mexico, and Brazil with particular reference to finance for investment and access to credit. The authors conclude with a set of policy recommendations aimed at strengthening Latin American banks and capital markets so that they can play a greater role in supporting economic development.

Tierra Dorada-Gabriela Narvaez Garcia 2011-04-01 En Mexico, a principios del siglo pasado, dos niños se enamoran. En la adolescencia, toman distancia por diferencias y secretos del alma. Pero el tiempo fue sabio con ellos, pues todo lo que vivieron los preparo para que su amor fuera eterno. The Economic Development of Latin America in the Twentieth Century-André A. Hofman 2000 Hofman, a researcher with the Chile-based Economic Commission for Latin America and the Caribbean, uses growth accounting methods and previously unavailable long-term series data to assess the economic performance of the region during the century from a comparative and historical perspective. In particular he compares Latin American economies to those of advanced capitalist economies, to newly industrialized economies, and to Spain and Portugal because of the historical ties. He looks at the reasons for the poor or negative growth during the 1980s and the apparent recovery in the 1990s and at such problems as debt, income inequality, high inflation, cyclical instability, and political and policy instability. Technology, Sustainability and Educational Innovation (TSIE)-Andrea Basantes-Andrade 2020-01-02 This book presents the proceedings of International Conference on Knowledge Society: Technology, Sustainability and

Educational Innovation (TSIE 2019). The conference, which was held at UTN in Ibarra, Ecuador, on 3–5 July 2019, allowed participants and speakers to share their research and findings on emerging and innovative global issues. The conference was organized in collaboration with a number of research groups: Group for the Scientific Research Network (e-CIER); Research Group in Educational Innovation and Technology, University of Salamanca, Spain(GITE-USAL); International Research Group for Heritage and Sustainability (GIIPS), and the Social Science Research Group (GICS). In addition, it had the endorsement of the RedCLARA, e-science, Fidal Foundation, Red CEDIA, IEEE, Microsoft, Business IT, Adobe, and Argo Systems. The term “knowledge society” can be understood as the management, understanding and co-creation of knowledge oriented toward the sustainable development and positive transformation of society. In this context and on the occasion of the XXXIII anniversary of the Universidad Técnica del Norte (UTN), the Postgraduate Institute through its Master of Technology and Educational Innovation held the I International Congress on Knowledge Society: Technology, Sustainability and Educational Innovation – TSIE 2019, which brought together educators, researchers, academics, students, managers, and professionals, from both the public and private sectors to share knowledge and technological developments. The book covers the following topics: 1. curriculum, technology and educational innovation; 2. media and education; 3. applied computing; 4. educational robotics. 5. technology, culture, heritage, and tourism development perspectives; and 6. biodiversity and sustainability.

Structural Reforms, Productivity and Technological Change in Latin America-Jorge M. Katz 2001 In the last ten to fifteen years, profound structural reforms have moved Latin America and the Caribbean from closed, state-dominated economies to ones that are more market-oriented and open. Policymakers expected that these changes would speed up growth. This book is part of a multi-year project to determine whether these expectation have been fulfilled. Focusing on technological change, the impact of the reforms on the process of innovation is examined. It notes that the development process is proving to be highly heterogenous across industries, regions and firms and can be described as strongly inequitable. This differentiation that has emerged has implications for job creation, trade balance, and the role of small and medium sized firms. This ultimately suggests, amongst other things, the need for policies to better spread the use of new technologies.

China and Latin America and the Caribbean-Osvaldo Rosales 2012 The economies of China and of the Latin America and the Caribbean region are the current global growth poles. The present juncture offers an opportunity to rethink global and regional partnership strategies and to put greater emphasis on South-South ties in trade, foreign direct investment and cooperation. This publication posits that China and the Latin America and the Caribbean region now enjoy a sufficiently mature relationship and are poised to make a qualitative leap towards a mutually beneficial strategic alliance.

Economic Reforms, Growth and Employment-Jürgen Weller 2001 In the last ten to fifteen years, profound structural reforms have moved Latin America and the Caribbean from closed, state-dominated economies to ones that are more market-oriented and open. Policymakers expected that these changes would speed up growth. This book is part of a multi-year project to determine whether these expectation have been fulfilled. Analysing the impact of the reforms on employment it is argued that expectations were not fulfilled with respect to the operation of the labour markets. The reforms limited the expansion of employment in some sectors, particularly in tradeable goods. They also created a bias in labour demand for better educated workers which exacerbates inequality. It is thus made clear that the region faces major challenges both in increasing the number of jobs and improving job equality.

Blind Sunflowers-Alberto Méndez Borra 2008 "A captain in Franco's army renounces winning the war - on the very day of the victory; a young poet flees with his pregnant girlfriend and is forced to grow up quickly, only to die within a few months; a prisoner in Porlier's jail refuses to live a lie so that his executioner can be held accountable; and a lustful deacon hides his desires behind the apostolic fascism that clamours for the purifying blood of the defeated." "Four subtly connected tales, narrated in the same spirit but with the individual styles of the different voices; these are stories from silent times, when people feared that others might discover what they knew. The line between the victorious and the defeated is blurred - whatever one's affiliation, nobody survives unscathed."--BOOK JACKET.

Building Code Requirements for Structural Concrete (ACI 318-08) and Commentary-ACI Committee 318 2008 The quality and testing of materials used in construction are covered by reference to the appropriate ASTM standard specifications. Welding of reinforcement is covered by reference to the appropriate AWS standard. Uses of the Code include adoption by reference in general building codes, and earlier editions have been widely used in this manner. The Code is written in a format that allows such reference without change to its language. Therefore, background details or suggestions for carrying out the requirements or intent of the Code portion cannot be included. The Commentary is provided for this purpose. Some of the considerations of the committee in developing the Code portion are discussed within the Commentary, with emphasis given to the explanation of new or revised provisions. Much of the research data referenced in preparing the Code is cited for the user desiring to study individual questions in greater detail. Other documents that provide suggestions for carrying out the requirements of the Code are also cited.

The Ten Loves of Nishino-Hiromi Kawakami 2019-06-04 The story of an enigmatic man through the voices of ten remarkable women who have loved him at one point in their lives. Each woman has succumbed, even if only for an hour, to that seductive, imprudent, and furtively feline man who drifted so naturally into their lives. Still clinging to the vivid memory of his warm breath and his indecipherable sentences, ten women tell their stories as they attempt to recreate the image of the unfathomable Nishino. Like a modern Decameron, this humorous, sensual, and touching novel by one of Japan's best-selling and most beloved writers is a powerful and embracing portrait of the human comedy in ten voices. Driven by desires that are at once unique and common, the women in this book are modern, familiar to us, and still mysterious. A little like Nishino himself . . . Winner 2020 Pen Translation Prize Praise for The Ten Loves of Nishino "If you like Haruki Murakami and Yoko Ogawa, it's a safe bet that you'll love The Ten Loves of Nishino." —DozoDomo (France) "Agile, inventive fiction." —Booklist "An intriguing portrayal of romantic attachment." —The New Yorker "The women in this collection are vibrant, lusty, and clearly the agents of their own love lives . . . Kawakami's novel treats its feminist themes with a light hand but still slyly lands its points." ?Kirkus Reviews

Medieval Spain-R. Collins 2002-07-30 This volume of essays contains contributions from a very wide range of British, American and Spanish scholars. Its primary concern is the relationships between the various ethnic, cultural, regional and religious communities that co-existed in the Iberian peninsula in the later Middle Ages. Conflicts and mutual interactions between them are here explored in a range of both historical and literary studies, to expose something of the rich diversity of the cultural life of later medieval Spain.
