<b>Labour Productivity and Flexibility</b> -Edward J. Amadeo 1997-12-13 This book is about two polemical issues in labour studies, namely, the notions and determinants of labour productivity and flexibility. This book attempts to develop the notion of labour input flexibility or the capacity of workers to adapt to changes in the environment and its relation with labour productivity. The role of institutions, employment practices, capital-labour relations and labour market policies in determining labour flexibility is emphasized. The chapters look at the experiences of industrialized countries (European countries, the USA, Canada and Japan) and three Latin American countries (Brazil, Chile and Mexico).

<b>The Guardian of the Light</b> -Sergio Bambaran 2011-10-23 When Martin meets Paola during a business trip to Chile, he is charmed by her sensibility and simplicity. But living in different countries, everything points out that they will never see each other again; however, a series of magical events will make them fall in love and plan a future together. Love leads them to accept the challenge of transforming an old and abandoned lighthouse that overlooks the Pacific Ocean into their dream house; and without planning it, they meet an old man that will change their lives forever: the guardian of the light. A wonderful love story that encourages us to trust the power of love: capable to overcome prejudices, distance, and all the impossible odds that can only be overcome by crossing the crystal walls that life and society places in our hearts and in our minds.

<b>Grandma's Gift</b> -Eric Velasquez 2013-10-08 This prequel to Eric Velasquez's biographical picture book Grandma's Records is the story of a Christmas holiday that young Eric spends with his grandmother. After they prepare their traditional Puerto Rican Christmas celebration, Eric and Grandma visit the Metropolitan Museum of Art for a school project, where he sees a painting by Diego Velasquez and realizes for the first time that he could be an artist when he grows up. Grandma witnesses his fascination, and presents Eric with the perfect Christmas gift-a set of paints-to use in his first steps toward becoming an artist. A heart-warming story of self-discovery, Grandma's Gift is a celebration of the special bond between a grandparent and grandchild.

<b>What Would Steve Jobs Do? How the Steve Jobs Way Can Inspire Anyone to Think Differently and Win</b> -Peter Sander 2011-12-23 Lead and Succeed Like the World’s Greatest Business Innovator There’s no accounting for Steve Jobs’s mind. He just didn’t think the way the rest of the world does. Regarded by many as the most innovative and influential business leader of our time, Jobs was a visionary beyond compare. He was why Apple is Apple and everyone else is everyone else. We can’t transform ourselves into Steve Jobs. How he put his ideas into action, however, was systematic, efficient, focused, and smart. And this you can do. What Would Steve Jobs Do? presents the six-part business model Jobs applied to make Apple the most valuable publicly traded manufacturing corporation in the world and the global model for business excellence. While the results of this model can be profound, each step is something you can easily focus on with clarity and purpose: Customer—Understand your customers so well that you know what they want more than they do. Vision—Don’t stop thinking at “new product”; synthesize your ideas, products, and technologies around a specific game-changing customer issue. Culture—Create an environment filled with people who consider “can’t” a bad word. Product—Approach your product as something that can change the world— not just something to beat the competition or get a job done. Message—Deliver a message so compelling that it becomes an extension of the product itself. Personal Brand—Make people think constancy, promise, and trust when they think of you. Steve Jobs was a true original. What we’ve all learned from him is incalculable. And what we can continue to learn from him will shape the world. Transform your organization, recast your future, and do your part to redefine our world using the wisdom and foresight of the greatest business sage in generations.

<b>The Weekend</b> -Peter Cameron 2009-03-31 On a midsummer weekend, in a country house in upstate New York, three friends, Lyle, Marian, and John, gather on the anniversary of the death of John’s brother, who was also Lyle’s lover. As Tony’s absence haunts each of them in different ways, the reunion is complicated by the presence of Lyle’s new lover, a much younger man named Robert, and a faux-Italian dinner guest with a penchant for truth telling. As the seemingly idyllic weekend proceeds, each character is stripped bare, and old memories and new desires create a chemistry that will transform them all.

<b>Vietnamerica</b> -GB Tran 2013-05-01 A superb new graphic memoir in which an inspired artist/storyteller reveals the road that brought his family to where they are today: Vietnamerica GB Tran is a young Vietnamese American artist who grew up distant from (and largely indifferent to) his family’s history. Born and raised in South Carolina as a son of immigrants, he knew that his parents had fled Vietnam during the fall of Saigon. But even as they struggled to adapt to life in America, they preferred to forget the past—and to focus on their children’s future. It was only in his late twenties that GB began to learn their extraordinary story. When his last surviving grandparents die within months of each other, GB visits Vietnam for the first time and begins to learn the tragic history of his family, and of the homeland they left behind. In this family saga played out in the shadow of history, GB uncovers the root of his father’s remoteness and why his mother had remained in an often fractious marriage; why his grandfather had abandoned his own family to fight for the Viet Cong; why his grandmother had had an affair with a French soldier. GB learns that his parents had taken harrowing flight from Saigon during the final hours of the war not because they thought America was better but because they were afraid of what would happen if they stayed. They entered America—a foreign land they couldn’t even imagine—where family connections dissolved and shared history was lost within a span of a single generation. In telling his family’s story, GB finds his own place in this saga of hardship and heroism. Vietnamerica is a visually stunning portrait of survival, escape, and reinvention—and of the gift of the American immigrants’ dream, passed on to their children. Vietnamerica is an unforgettable story of family revelation and reconnection—and a new graphic-memoir classic.
<b>Drawn Together</b> -Minh Lê 2018-06-04 The recipient of six starred reviews and the APALA Asian/Pacific American Award for Literature! Named a Best Book of 2018 by the Wall Street Journal, NPR, Smithsonian, Kirkus Reviews, School Library Journal, Booklist, the Bulletin of the Center for Children’s Books, BookRiot, the New York Public Library, the Chicago Public Library-and many more! When a young boy visits his grandfather, their lack of a common language leads to confusion, frustration, and silence. But as they sit down to draw together, something magical happens-with a shared love of art and storytelling, the two form a bond that goes beyond words. With spare, direct text by Minh Lê and luminous illustrations by Caldecott Medalist Dan Santat, this stirring picturebook about reaching across barriers will be cherished for years to come. A Junior Library Guild selection!
<b>Towers of Stone</b> -Wojciech Jagielski 2011-01-04 In Towers of Stone, award-winning Polish reporter Wojciech Jagielski brings into focus the tragedy of Chechnya, its inhabitants, and the war being waged there by a handful of desperate warriors against a powerful and much more numerous army. Jagielski’s narrative is told through the lens of two men: Shamil Basaev, a hero to some, a dangerous warlord to others; and Aslan Maskhadov, a calculating and sober politician, who is viewed as a providential savior by some of his compatriots and a cowardly opportunist by the rest. Caught up in a war to which they owe everything and without which they could not live, the two fighters face enemy forces—and one another—in protean conflicts that prove hard to quell. Viewing the two men’s personal story as a microcosm of the conflict threatening to devour a land and its peoples, Jagielski distills the bitter history of the region with forceful clarity.
