S=EX2-Pere Estupinyà 2016-08-25 You have in your hands the most rigorous, complete and readable book ever written about the fascinating science of human sexuality. This book goes beyond the well-worn sexual education advice and the usual evolutionist psychology. After The Brain Snatcher, Pere Estupinyà comes back with the first popular science book on sex aimed at a wide audience. While there are some tips for the more adventurous, there is also a wealth of new information to be discovered. Distancing himself from the many books on advice or techniques, Estupinyà brings sex to another dimension by combining popular beliefs and science. Do you want proof that our decision-making in the “heat of the moment” is less rational than we think? Did you know that mind and vagina each go their own way? Are you interested in learning about the effects of yoga on sexual pleasure? Did you know about the attempts in the 60s to “cure” homosexuals with electric shock therapy, the chemical analysis of female ejaculation, or the fundamental relationship between the sympathetic and parasympathetic nervous system? The author has spoken directly with asexual and intersexual individuals, fetishists, multi-orgasmic women, women who never have orgasms through penetration, and men who have no refractory period. He has also participated in sadomasochistic events; learned tantric techniques with a couple of coaches, spoken with porn performers at Barcelona’s Bagdad, and attended workshops in which a woman teaches how to have orgasms with your mind and breathing. The result is an incredible miscellany of information that appeals to both the scientific community and the curious.

El nuevo arte de enamorar-Antoni Bolinches Sanchez 2018-10-31 El arte de enamorar es el arte de mejorar. Una idea que vertebra el libro y que se ha convertido en referente de un nuevo modelo de relaciones amorosas. Porque, mientras que en el modelo tradicional el hombre propone y la mujer dispone, en el siglo xxi se hace imprescindible otro nuevo modelo, más simétrico e igualitario, que facilite la interacción entre ambos sexos sin que tengan que renunciar a aquello que les hace únicos. Según Bolinches, esta es la única manera de superar la actual crisis en las relaciones de pareja entre unos hombres desorientados porque buscan mujeres que ya no existen y unas mujeres decepcionadas porque esperan encontrar hombres que todavía no han aparecido.

The Great Controversy Between Christ and Satan-Ellen Gould Harmon White 1954 Before the entrance of sin, Adam enjoyed open communion with his Maker; but since man separated himself from God by transgression, the human race has been cut off from this high privilege. By the plan of redemption, however, a way has been opened whereby the inhabitants of the earth may still have connection with heaven. God has communicated with men by His Spirit, and divine light has been imparted to the world by revelations to His chosen servants. “Holy men of God spake as they were moved by the Holy Ghost.” 2 Peter 1:21. During the first twenty-five hundred years of human history, there was no written revelation. Those who had been taught of God, communicated their knowledge to others, and it was handed down from father to son, through successive generations. The preparation of the written word began in the time of Moses. Inspired revelations were then embodied in an inspired book. This work continued during the long period of sixteen hundred years,—from Moses, the historian of creation and the law, to John, the recorder of the most sublime truths of the gospel. The Bible points to God as its author; yet it was written by human hands; and in the varied style of its different books it presents the characteristics of the several writers. The truths revealed are all “given by inspiration of God” (2 Tim. 3:16); yet they are expressed in the words of men. The Infinite One by His Holy Spirit has shed light into the minds and hearts of His servants. He has given dreams and visions, symbols and figures; and those to whom the truth was thus revealed, have themselves embodied the thought in human language. The ten commandments were spoken by God Himself, and were written by His own hand. They are of divine, and not of human composition. But the Bible, with its God-given truths expressed in the language of men, presents a union of the divine and the human. Such a union existed in the nature of Christ, who was the Son of God and the Son of man. Thus it is true of the Bible, as it was of Christ, that “the Word was made flesh, and dwelt among us.” John 1:14. Written in different ages, by men who differed widely in rank and occupation, and in mental and spiritual endowments, the books of the Bible present a wide contrast in style, as well as a diversity in the nature of the subjects unfolded. Different forms of expression are employed by different writers; often the same truth is more strikingly presented by one than by another. And as several writers present a subject under varied aspects and relations, there may appear, to the superficial, careless, or prejudiced reader, to be discrepancy or contradiction, where the thoughtful, reverent student, with clearer insight, discerns the underlying harmony. As presented through different individuals, the truth is brought out in its varied aspects. One writer is more strongly impressed with one phase of the subject; he grasps those points that harmonize with his experience or with his power of perception and appreciation; another seizes upon a different phase; and each, under the guidance of the Holy Spirit, presents what is most forcibly impressed upon his own mind—a different aspect of the truth in each, but a perfect harmony through all. And the truths thus revealed unite to form a perfect whole, adapted to meet the wants of men in all the circumstances and experiences of life. God has been pleased to communicate His truth to the world by human agencies, and He Himself, by His Holy Spirit, qualified men and enabled them to do this work. He guided the mind in the selection of what to speak and what to write. The treasure was intrusted to earthen vessels, yet it is, none the less, from Heaven. The testimony is conveyed through the imperfect expression of human language, yet it is the testimony of God; and the obedient, believing child of God beholds in it the glory of a divine power, full of grace and truth.

Otherness in Hispanic Culture-Teresa Fernández Ulloa 2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th, 20th and

21st centuries, and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America. The majority of the chapters are concerned with ‘otherness’ in its various dimensions; the alien Other - foreign, immigrant, ethnically different, disempowered, female or minor - as well as the Other of different sexual orientation and/or ideology. Following Octavio Paz, otherness is expressed as the attempt to find the lost object of desire, the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus, who in his wrath, tore off from him. Otherness compels human beings to search for the complement from which they were severed. Thus a male joins a female, his other half, the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection, formerly altered by divine will. As a result of this transformation, one can annul the distance that keeps us away from that which, not being our own, turns into a source of anguish. The clashing diversity of all things requires the human predisposition to accept that which is different. Such a predisposition is an expression of epistemological, ethical and political aperture. The disposition to co-exist with the different is imagined in the de-anthropocentricization of the bonds with all living realms. And otherness is, in some way, the reflection of sameness (mismidad). The other is closely related to the self, because the vision of the other implies a reflection about the self; it implies, consciously or not, a relationship with the self. These topics are addressed in this book from an interdisciplinary perspective, encompassing arts, humanities and social sciences.

The Travels of Marco Polo the Venetian-Marco Polo 1854

The Peacemaker-Ken Sande 2004-01-01 Jesus said, "Blessed are the peacemakers." But it often seems like conflict and disagreement are unavoidable. Serious, divisive conflict is everywhere-within families, in the church, and out in the world. And it can seem impossible to overcome its negative force in our lives. In The Peacemaker, Ken Sande presents a comprehensive and practical theology for conflict resolution designed to bring about not only a cease-fire but also unity and harmony. Sande takes readers beyond resolving conflicts to true, life-changing reconciliation with family members, coworkers, and fellow believers. Biblically based, The Peacemaker is full of godly wisdom and useful suggestions that are easily applied to any relationship needing reconciliation. Sande's years of experience as an attorney and as president of Peacemaker Ministries will strengthen readers' confidence as they stand in the gap as peacemakers.

When God Doesn't Make Sense-James C. Dobson 2012-10-17 Argues that those facing illness, bereavement, divorce, or rejection should retain their faith in God and not feel betrayed.

A Room of One's Own-Virginia Woolf 2020-10-12 In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of ‘Women and Fiction’; she spoke about her conviction that ‘a woman must have money and a room of her own if she is to write fiction’. The following year, the two speeches were published as A Room of One’s Own, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance - women and learning, writing and poverty - which helped to establish much of feminist thought on the importance of education and money for women’s independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence - a call which sent ripples well into the next century. 'Brilliant interweaving of personal experience, imaginative musing and political clarity' — Kate Mosse, The Guardian 'Probably the most influential piece of non-fictional writing by a woman in this century.' — Hermione Lee, The Financial Times

The Art Of Seduction-Robert Greene 2010-09-03 Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48 Laws of Power, Mastery, and The 33 Strategies Of War.

The 48 Laws of Power-Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

And it will help you master the fundamental challenges that have not changed: building a strong team, creating an awesome product or service, and facing down your competition. As Guy likes to say, “Entrepreneur is a state of mind, not a job title.” His book will help you make your crazy ideas stick, through an adventure that's more art than science - the art of the start.

The Spirits' Book-Allan Kardec 2006-10-01 When two "grave and serious" spirits began speaking to a French academic through two young mediums and "completely revolutionized [his] ideas and convictions," Allan Kardec decided to set down these spiritualistic revelations. The result electrified the high society of the mid 19th century, which was already fascinated by "spirit tapping" and other paranormalities, and earned Kardec-a pseudonym his spirits commanded him to use-a place in this history of the paranormal as the father of spiritism. Kardec "interviews" the spirits, asking more than 1000 questions about morality, the nature of the soul, the history of humanity, and more, including: . "Is the soul reincarnated immediately after its separation from the body?" . "Does

the spirit remember his corporeal existence?" . "Could two beings, who have already known and loved each other, meet again and recognise one another, in another corporeal existence?" . "What is to be thought of the signification attributed to dreams?" . "Are good and evil absolute for all men?" . "What is the aim of God in visiting mankind with destructive calamities?" . "Is it possible for man to enjoy perfect happiness upon the earth?" Promising nothing less than the secret of the destiny of the human race, this extraordinary book, first published in 1856, is as curious today as it was a century and a half ago. French scholar HIPPOLYTE LEON DENIZARD RIVAIL (1804-1869), aka Allan Kardec, was a longtime teacher of mathematics, astronomy, and other scientific disciplines before turning to the paranormal.

Sapiens-Yuval Noah Harari 2015-02-10 New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

The bar is so high, especially if you aspire to love like Jesus. But it's not impossible. In Love Like Jesus, Dr. Parrott takes the latest findings from sociology and psychology and blends them with biblical understanding to reveal practical and often counter-intuitive ways of loving like never before. He breaks them down into five factors--being mindful, being approachable, being a grace-giver, being vulnerable, and being empathetic--and shows how to practice them in daily life. The result will be deeply fulfilling and meaningful connections with nearly anyone you encounter--but especially in the relationships that matter most.

Red Moon-M.a. Grant 2013-08-01 Dark, moving and original, a story of family, survival, and getting on with life... Flynn Sinclair understands pack loyalty - for years as his Alpha father's enforcer, he has done things in the name of duty that he can't ever forget. But the vast expanse of Alaska offers him a peace he's never known. Alone, removed from pack life, he can focus on his research and try to forget his life before. But duty has a way of inviting itself in, and Flynn finds himself doing two reckless things in one week: leaving the safety of Alaska to save his brother Connor's life, and unwittingly falling in love with Evie Thompson, a woman who doesn't deserve to be drawn into his terrifying world. Connor carries news of their father's descent into madness, and it looks like neither geography nor Flynn's attempts at disengagement will put off a confrontation. Flynn had finally begun to believe that he might deserve something good in his life - something like Evie - but to move forward in the light, he must first reconcile with the dark.

Prácticas poco usuales del sexo-Pilar Cristóbal 2002 El deseo sexual sopla donde quiere y cuando quiere y no somos libres para sentir, solo somos libres de hacer o no hacer. El desconocimiento del sexo por motivos de educación, factores socioculturales o incluso deseos reprimidos hacen de nuestra vida sexual una cuestión intocable, cuando en realidad debería formar parte del día a día, con naturalidad y desinhibición. Un elemento clave para gozar de una plena y saludable vida sexual a solas o en compañía, por supuesto contando con el sabio dicho de que "Dos no juegan si uno no quiere"; es decir, sin obligar a otro a actividades sexuales no deseadas, y sin dejarse llevar por impulsos o prácticas mutiladoras o peligrosas de las que arrepentirse. -Fantasías sexuales en grupo o en solitario. -Ataduras, "piercing", anillados y esposas para "sufrir" en poder del otro. -Gozar virtualmente del placer de un amante cibernético. -El beso negro, el mordisco de jabalí, la lluvia dorada y la nube quebrada. -Fetichismo de los pies, botas, zapatos de tacón, lencería y piedras preciosas. -Juegos de "bondage": arneses, candados y cadenas. -Posturas insólitas y técnicas orientales, como el carrito siamés y la flagelación,

para alcanzar mayor excitación. En este libro, Pilar Cristóbal, sexóloga y psicóloga, desmitifica gran parte de las denominadas "conductas aberrantes" y que, sin embargo, pertenecen al mapa erótico humano e integran las fantasías más íntimas de la mayoría de las personas. Una obra que ayudará a conocer muchas de las posibilidades del placer sexual y el goce erótico, por las sendas menos conflictivas, y a entender que es posible, teniendo claros los límites propios y ajenos, poder disfrutar de una vida sexual armónica y equilibrada, sin que ello menoscabe

nuestra personalidad o autoestima.
