practices of writing. With the worldwide web impacting increasingly on academic and business communication, the need has never been greater for advanced study in writing, communication, and critical thinking across all genres, sectors, and cultures. In recent decades, the definitions of 'new rhetoric' have expanded to encompass a variety of theories and movements, raising the question of how rhetoric is understood and employed in the twenty-first century. The essays collected here represent variations on these themes, with each attempting to answer the title's deliberately provocative question, addressing particularly: -How the classical art of rhetoric is still relevant today; -How it is directly related to modern technologies and the new modes of communication they have generated; - How rhetorical practice is informing research methodologies and teaching and learning practices in the contemporary academy.

From Networks to Netflix-Derek Johnson 2018-01-03 Even as the television industry experiences significant transformation and disruption in the face of streaming and online delivery, the television channel itself persists. If anything, the television channel landscape has become more complex to navigate as viewers can now choose between broadcast, cable, streaming,

and premium services across a host of different platforms and devices. From Networks to Netflix provides an authoritative answer to that navigational need, helping students, instructors, and scholars understand these industrial changes through the lens of the channel. Through examination of emerging services like Hulu and Amazon Prime Video, investigation of YouTube channels and cable outlets like Freeform and Comedy Central, and critiques of broadcast giants like ABC and PBS, this book offers a concrete, tangible means of exploring the foundations of a changing industry.

More or Less-Jeff Shinabarger 2013-03-01 In *More or Less*, Jeff Shinabarger calls readers to create their own social experiments to answer the question, "What is enough?" It all started with one idea: What would happen if we created a culture in which we gave away whatever was more than enough for us? How would our habits change if we shed the excess of money, clutter, and food in our lives? In *More or Less*, readers will learn how to draw a line of "enough" in their consumer choices, how to see generosity as a chance to experience freedom in a greedy world, and how to make small changes now that will help others forever. As Shinabarger reminds them, defining "enough" is more than a responsibility—it is an opportunity to give hope. With a foreword by Bob Goff.

Mapping Chengde-Philippe Foret 2000-06-01

The imperial residence of Chengde was built by two powerful and ambitious Manchu emperors between 1703 and 1780 in the mountains of Jehol. This volume, the first scholarly publication in English on the Manchu summer capital, reveals how this unlikely architectural and landscape enterprise came to help forge a dynasty's multicultural identity and concretize its claims of political legitimacy. Using both visual and textual materials, the author explores the hidden dimensions of landscape, showing how geographical imagination shaped the aesthetics of Qing court culture while proposing a new interpretation of the mental universe that conceived one of the world's most remarkable examples of imperial architecture.

Power-Jane Golley 2019-04-11 In 2018, the People's Republic of China (PRC) was, by most measures, more powerful than at any other time in its history and had become one of the most powerful countries in the world. Its economy faced serious challenges, including from the ongoing 'trade war' with the US, but still ranked as the world's second largest. Its Belt and Road Initiative, meanwhile, continued to carve paths of influence and economic integration across several continents. A deft combination of policy, investment, and entrepreneurship has also turned the PRC into a global 'techno-power'. It aims, with a good chance of success, at becoming a global science and technology leader by 2049 -

one hundred years from the founding of the PRC. In surveying the various ways in which the Party-state wields its hard, soft, and sharp power, the China Story Yearbook: Power offers readers a sense of the diversity of power at work both in China and abroad. Citizens of the PRC have long negotiated the state's influence; increasingly, diaspora communities and other actors are now being subject to its might. As with previous editions in the series, we place important developments in historical context, and adopt a cross-disciplinary approach: it is our view that economy and politics cannot be divorced from culture, history, and society. The Yearbook provides accessible analysis of the main events and trends of the year and is an essential tool for understanding China's growing power and influence around the world.

You Were Born for This-Bruce Wilkinson 2011 His New York Times phenomenon The Prayer of Jabez changed how millions pray. Now Bruce Wilkinson wants to change what they do next. Anyone can do a good deed, but some good works can only happen by an act of God. Around the world these acts are called miracles-not that even religious people expect to see one any time soon. But what would happen if millions of ordinary people walked out each morning expecting God to deliver a miracle through them to a person in need? You Were Born for This starts with the dramatic premise that everyone at all times is in need of a miracle, and that God is ready to meet those needs supernaturally through ordinary people who are willing to learn the "protocol of heaven." In the straightforward, story-driven, highly motivating style for which he is known, Wilkinson describes how anyone can be a 'Delivery Guy' from heaven in such universally significant arenas of life as finances, practical help, relationships, purpose and spiritual growth. You Were Born for This will change how you see your world and show you what you can expect God to do through you to

But there's a catch: She must disguise herself as a man named Aristos. There are no women in the Atalantan Military, and there never will be. Aris gives up everything to find Calix: her home.
