Chemistry of Structure-Function Relationships in Cheese -Edyth L. Malin 2013-11-11 Although the art of making cheese can be traced to prehistoric times, it has continued to evolve as modern civilization progressed. The advent of new technologies and instrumentation has brought exponential growth in the understanding of cheese components and their function. Even more recently, the evolution of cheesemaking has accelerated, driven by economic factors such as the establishment of the European Economic Community, the changing diet of developed countries, and the environmental and economic concerns associated with whey disposal. Molecular biology has revolutionized the development of starter and adjunct cultures as well as rennets, and genetics will make it possible to maintain ideal milk components for cheesemaking. The ability to accelerate traditional ripening procedures has altered the production of certain cheeses, and the emphasis on decreasing the intake of dietary fat, especially in the United States, has prompted the development of technology for producing low-fat cheeses with traditional texture and flavor. In assembling a distinguished group of participants for the symposium, "Chemistry of the Structure/Function Relationships in Cheese," we hoped to review the interplay of these trends and forecast the direction of future research. Contributors evaluated the current status of cheesemaking and highlighted the information that will be essential for new developments. They also focused the attention of agricultural and food chemists on the opportunities in cheese research and the potential contributions they might make to the future of cheese, a most valuable food product. We are indebted to Dr. Patrick Fox, Dr. Mark Johnson, Dr. Milos Kalab, Dr.

Renovating a Heart-Deandra Hall 2014-04-09 Sometimes you lose everything. Sometimes you never had anything to lose. And sometimes you get a chance to start all over. Would you take it even if it broke your heart? Steve McCoy is one tough, heartless son of a bitch. He's a successful attorney, owner of Citadel Security, and proprietor of the only BDSM club in Lexington, Kentucky. He treats his subs like he treats his heart - cold, indifferent, and distant. The last thing he needs is a ray of sunshine walking into his office to shake up his world. Kelly Markham's had her share of tough breaks. A teenage runaway forced into prostitution just to survive, she grew up fast. When she finally escaped that life and built a new one, every time she found happiness, it got snatched right out from under her. A referral to Steve for a legal matter leads her to visit his club, Eden's Gate, and she finally finds the place where she feels she belongs. As she settles into the club, her longing to have what she had with her deceased Dom returns, and she asks Steve to sign a contract with her. Even though he insists it's only for one month, Kelly hopes she can find a way to crack open his hardened, cold heart. But once in Steve's home, Kelly stumbles upon a staggeringly heartbreaking secret, and she sets about to help Steve heal. She couldn't know that what she'd find could be fatal when she stirs the wrong pot. All of the good intention in the world won't help when the wrong people feel threatened. Her good intentions backfire when Steve explodes and orders her away. It's over, but Kelly wants to finish what she started, even if he hates her for it. Problem is, sometimes if the tiger is sleeping, poking it isn't a good idea. Unknowingly, poke it she has. So when an evil from Steve's past shows up to end them both, can someone open their heart enough to step in and be the hero they were meant to be? WARNING: Contains graphic violence and frequent sexual situations, some of which challenge the boundaries of consensual sex, and may include BDSM and multiple partners. Not suitable for readers under the age of 18.

The Gender Politics Of Educational Change-Amanda Datnow 2002-11-01 What is the relationship of gender to the micropolitics of school reform? This book explores this timely research question, revealing the everyday struggles that happen between different factions of teachers with different definitions of what school means for students. The focus of this struggle, however, may not be on education, but rather on such underlying issues as gender. Using case studies, the author shows how gender politics can be used by teachers to delay reform.

Knifepoint-Edward W. Robertson 2013-08-16 Raina was just a girl when the plague came. She survived. Her parents didn't. Neither did the world. As civilization fell, she took to the ruins of Los Angeles, eating whatever she could catch. After two years alone, she's found and adopted by a fisherman and his wife. Their makeshift family lives a quiet life--until a man named Karslaw sails in from Catalina Island with an army of conquerors. Driven by visions of empire, he executes Raina's new father as a traitor and takes her mother captive. But Karslaw's people aren't the only ones vying for control of the ruined land. As violence wracks the city, Raina joins a rebellion against Karslaw's rule. She will stop at nothing to free her mother--and to have her revenge.
